EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William L. Brooks on 03/27/09. The application has been amended as follows:

In the claims:

Claim 37. (cancelled).

Claim 48. (cancelled).

REASONS FOR ALLOWANCE

2. Claims 1, 27 and 42 are allowed. The following is a statement of the Examiner's reasons for allowance. Regarding claim 1, the prior art fails to disclose the optical system comprises a free-form-surface prism having a surface for combining the optical axis of the measurement light beam and transmission of the visible light, and a deviation angle correcting prism for correcting a deviation angle of the visible light passing through the free-form-surface prism. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by
